*SUPPLEMENTARY INDEX. ... ... pp. 107-end.

* *Note.—Owing to the fact that the maps in the present edition of "The Times" Atlas embody additions and corrections which have been made, in some cases, only a few days before going to press, it has been found impossible to incorporate the whole of the names of places to be found in the present edition in the main Index.*

A Supplementary Index, commencing at page 107, has therefore been appended, to which reference should be made for any name which is not to be found in the general body of the Index.
